Complaint 42 against the Health and Disability Commissioner (HDC), regarding a HDC staff member recording incorrect, misleading information in a phone log, and the HDC withholding it from me for over two and a half years (part of complaint)

**Dear Ombudsman, dear Mr S and dear C
L**

Further to my concerns about parts of my complaint being referred to other agencies, I feel prompted to copy you in on the brief correspondence I have now received from the Office of the Privacy Commissioner. It is deeply worrying that the issues I presented re an incorrect phone log that was withheld from me by HDC staff for over two and a half years, has simply been treated as an 'enquiry', and will apparently not even be investigated.

I am deeply disappointed and have responded as I considered it necessary.

It appears as if the Privacy Commissioner may not even have been provided all the details they need to properly assess the matters I raised. If this happens, we are moving nowhere, I must say with regret.

Thanks for your acknowledgment.

Yours sincerely

Street
